Subject Mercury SRE Graphs

History:

This message has been replied to and forwarded.

Todd,

Wanted to send you an update on the Mercury SRE Graphs. We found a mistake that lowers the mercury feed in the waste (some questions Chris asked got us thinking and questioning... we owe him lunch!!). We've sent these to Charlie and explained the change. As you'll see by the graphs, although the slopes flattened, all SRE's remain better at the higher feed rates as before. Have a good weekend and give Dave or I a call if you have any questions.
